Q- What other services does Airgas offer?

A- Airgas has over 100 Safety Specialists throughout the country trained and educated to address our customers' needs, one-on-one. Topics such as:

On-site Safety surveys, Product analysis, Hazard assessment, Inventory control, Technical support, New product introduction, Cost saving initiatives, Safety meetings, and Respiratory fit-testing.

Gasses: Industrial, Welding, Specialty, Medical, CO₂/Dry Ice, Ammonia, Refrigerants, Welding Hardgoods

Welding Equipment Rental

Q- How do I register?

A- Once you have registered with HBPP, you will be directed to the Airgas web-site. Fill out the registration page and an Airgas Safety Specialist from your area will contact you within 3 to 5 days to get you a log-in and password for the Airgas web-site, and be available to help you with your safety needs.

Q- What is the discount?

A- The actual price is based on cost-plus and varies by category. The estimated discount is 30 - 35% off the Airgas published catalog pricing.

Q- Can I place orders online?

A-Yes, your Regional Airgas sales representative can set you up with Airgas user name and password to access your online ordering.
